

IINCEA 2025

ISDA INFRACON NATIONAL CONFERENCE EXHIBITION & AWARDS -2025

**Theme - Towards Carbon Neutrality:
Innovations and Challenges in Construction & Infrastructure Sector**

**14th June, 2025,
Le Meridien, Janpath, New Delhi**

Background

The Global push towards carbon neutrality is an imperative to combat climate change and achieve sustainable development. As part of this transition, sectors like cement and steel-critical pillars of infrastructure development-play a pivotal role. Both industries are, significant contributors to greenhouse gas (GHG) emissions, given their energy-intensive nature and reliance on fossil fuels. With increasing pressure from international climate agreements such as the Paris Accord, National Policies, and the global shift to low-carbon economies, the cement and steel sectors besides others are at a crossroads. The manufacturing processes where high demand of energy is required must innovate and transform to drastically reduce their carbon footprints while continuing to meet growing demands for infrastructure development.

Conference Focus

The Infrastructure Skill Development Academy (ISDA) is dedicated to advancing carbon neutrality in the Infrastructure sector. As part of its long-term commitment, ISDA will host a series of National Level Conferences aimed at supporting the industry in its journey toward achieving net zero carbon emissions. These conferences will continue until the construction sector reaches this critical goal.

This particular conference will focus primarily on carbon emissions from the cement, steel, Glass and Aluminum industries, which are significant contributors to the overall carbon footprint of construction. Industry experts and thought leaders will explore innovative strategies to reduce emissions in a phased manner, offering practical solutions for short-term and long-term implementation. The insights and outcomes of this conference will play a vital role in advising the construction industry on the necessary actions, guiding stakeholders in adopting sustainable materials, renewable energy solutions, and advanced technologies. Each conference outcome will help shape the pathway toward a carbon-neutral future.

Key Topics to be Discussed:

- Carbon Footprint of Building Materials: Analysis of carbon emissions from commonly used materials and ways to reduce the impact.
- Sustainable Construction Practices: Adoption of eco-friendly and energy-efficient methods in construction to lower carbon emissions.
- Renewable Energy in Construction: Utilization of renewable energy resources in construction projects to minimize reliance on fossil fuels.
- Green Building Certifications: Understanding certifications such as LEED and BREEAM, and how they support carbon neutrality goals.
- Innovative Technologies for Carbon Reduction: Latest advancements in construction technology aimed at reducing emissions, from design to execution.

Exhibition on Sustainable Solutions

Parallel to the conference, an Exhibition will showcase the latest materials, technologies, and products that support carbon neutrality in the construction industry. Participants will include:

- Construction Material Manufacturers & Suppliers: Showcasing low-carbon and sustainable building materials.
- Renewable Energy Providers: Presenting renewable energy solutions tailored for the construction industry.
- Innovative Research-Based Products: Highlighting cutting-edge technologies designed to reduce emissions during construction and throughout the building lifecycle.

ISDA Infracon National Awards (IIN Awards)

The one day event includes, The Prestigious IIN Awards will be held in the afternoon session. These awards will recognize outstanding contributions and innovations in sustainability, infrastructure development, and excellence in the construction industry.

Why Attend?

This is an excellent opportunity to explore practical, eco-friendly solutions for your construction projects and connect with leading manufacturers, suppliers, and innovators.

- Learn from top industry professionals about carbon neutrality and sustainability strategies.
- Network with suppliers and technology providers offering solutions to reduce your project's environmental footprint.
- Stay updated on the latest regulatory frameworks and certifications to keep your business compliant and sustainable.

Sponsorship Opportunities:

Why Sponsor This Event?

- Maximize Brand Exposure:** Showcase your leadership in sustainability and innovation to key decision-makers in the cement, steel, and infrastructure sectors.
- Exclusive Networking Opportunities:** Connect directly with top industry professionals, policymakers, and investors driving the carbon-neutral transformation.
- Position as a Thought Leader:** Align your brand with groundbreaking solutions and future-forward discussions on achieving carbon neutrality.

Collaboration Opportunities:

COLLABORATION CATEGORY	FEE (INR) Taxes Extra as applicable	COMPLIMENTARY STALL AREA	COMPLIMENTARY DELEGATE	PRESENTATION SLOT (Minutes)	CORPORATE VIDEO PLAY	BRANDING
Event Partner (Exclusive for 01 Sponsor)	12.0 lac	Benefits to be discussed in person	15	30	✓	✓
Platinum Sponsor (Exclusive for 02 Sponsors)	09.0 lac	18.00 Sq.m	10	20	✓	✓
Gold Sponsors	09.0 lac	12.00 Sq.m	07	15	✓	✓
Silver Sponsors	03.0 lac	09.00 Sq.m	05	5	×	✓
Bronze Sponsors	01.50 lac	Table Space	04	×	×	✓
Lanyard Sponsor	03.0 lac	09.00 Sq.m	05	×	✓	✓
Lunch/High Tea Sponsor	05.0 lac	09.00 Sq.m	05	×	✓	✓
Cocktail Dinner Sponsor	05.0 lac	09.00 Sq.m	05	×	✓	✓
Delegate Kit Sponsor	05.0 lac	09.00 Sq.m	05	×	✓	✓
Supporting Partner	01.0 lac	×	05	×	×	✓

Delegate Fees:

Individual Delegates
Rs. 10,000/- + Taxes

For more than three delegates from the same organisations 10% discount on the total fee.

Payment (Bank Transfer-RTGS/IMPS)

Bank : The Federal Bank Ltd
 Branch : Nehru Place, New Delhi - 110019
 Account Name : Infrastructure Skill Development Academy
 Account No. : 13025500062833
 IFSC No. : FDRL0001302
 GSTIN : 07AADC12907A1Z5
 Pan No. : AADC12907A
